MARK PEREZ

Junior Software Developer – AI & QA | Level-Headed ● Resourceful ● Adaptable

Toronto, ON | (647) 998-1335 | markkokhan@gmail.com | linkedin.com/in/mark-perez-43023121a

PROFILE

Highly motivated AI Software Engineering Technology student with R&D internship experience building **agentic AI pipelines** using LLMs, MCP servers, and APIs, plus 8 months of **QA automation** experience at a fintech company. Natural puzzle solver who stays calm under pressure, learns new frameworks quickly, and delivers practical, well-tested solutions.

HIGHLIGHTS OF QUALIFICATIONS

- Designed and iterated **agentic AI workflows** on an in-house orchestration framework to triage and prioritize security vulnerabilities for a client
- Automated regression test suites with **Cypress and Playwright** and performed API testing with Postman for a mobile banking app
- Programming experience in **Python, JavaScript, TypeScript, C#, and SQL** with working knowledge of Git, Linux, and AWS
- Strong academic record: **4.43/4.5 GPA** at Centennial College and **Dean's Honour List** every year at the University of Waterloo
- Customer-facing communication skills built through retail sales and one-on-one and group tutoring

SKILLS

- **Programming:** Python, JavaScript, TypeScript, C#, SQL (PostgreSQL), HTML/CSS, Object-Oriented Programming
- **AI & Security:** LLMs, Agentic AI Pipelines, Model Context Protocol (MCP), Prompt Engineering, REST APIs, CVSS / EPSS / CISA KEV, Wiz
- **Testing & QA:** Test Automation, Regression & Smoke Testing, API Testing, Cypress, Playwright, Postman, Sauce Labs, Applitools
- **Tools & Platforms:** Git/GitHub, Jira, AWS, Docker, Linux, VS Code, DataGrip, Figma, Microsoft Office (Word, Excel, PowerPoint)
- **Soft Skills:** Analytical Problem-Solving, Adaptability, Composure Under Pressure, Team Collaboration
- **Languages:** English (Fluent), Ukrainian (Conversational), Spanish (Conversational)

EXPERIENCE

R&D Trainee | SoftServe, Toronto, ON (Remote) ***Jul 2026 – Sep 2026***

- **Built an agentic AI pipeline** on SoftServe's in-house orchestration framework (Neo) to prioritize client vulnerabilities and recommend remediation for a client pitch demo
- Integrated public vulnerability data sources (**CVSS, EPSS, CISA KEV**) through APIs and MCP servers to rank findings by severity and likelihood of exploitation
- Refined a **reusable AI skill** over multiple iterations to generate structured vulnerability reports that consistently followed a client template
- Synthesized realistic Wiz scanner input data from interviews with a client-facing colleague, enabling end-to-end testing without a product license
- Designed the pipeline to be cloud- and LLM-agnostic, using AWS as the reference environment, with a roadmap to scale from single findings to **hundreds of thousands of vulnerabilities**

Sales Representative | Rogers, Toronto, ON ***Aug 2025 – Jul 2026***

- **Exceeded early sales goals** by driving strong mobile, bundle, and hardware conversions
- Matched customers with the best-fit plans and devices, strengthening satisfaction and retention
- Supported merchandising and in-store promotions that increased product visibility and engagement
- Delivered fast, knowledgeable service that built long-term trust and encouraged repeat business

Mark Perez | Toronto, ON | (647) 998-1335 | markkokhan@gmail.com | linkedin.com/in/mark-perez-43023121a

Quality Engineer | KOHO Financial, Toronto, ON ***Jan 2021 – Aug 2021***

- **Automated regression test cases** in JavaScript using Cypress and Playwright
- Executed **biweekly regression and smoke testing** on release-candidate builds to catch defects before launch
- Validated new features, updates, and bug fixes through manual testing and API testing in Postman
- Created and managed test data in PostgreSQL to support test coverage across app scenarios
- Collaborated with developers to troubleshoot defects and refine testing strategies for app changes

Math/Science Tutor | Seneca College, Vaughan, ON ***Sep 2019 – Dec 2019***

- Led exam review workshops focused on topics students commonly found difficult
- Tutored students individually and in groups to strengthen understanding of complex concepts
- Developed handouts and workshop materials addressing program-specific problem areas
- Liaised with professors to address concerns about course material

EDUCATION

Advanced Diploma, Software Engineering Technology – Artificial Intelligence (Co-op) ***Expected Apr 2028***

Centennial College, Toronto, ON

- **GPA: 4.43/4.5**
- **Relevant Courses:** Introduction to Artificial Intelligence, Artificial Intelligence Systems Design, Java Programming, Programming 1 & 2, Introduction to Database Concepts, Unix/Linux Operating Systems

Bachelor of Science, Honours Kinesiology (Co-op) ***Dec 2022***

University of Waterloo, Waterloo, ON

- **GPA: 3.7** – Dean's Honour List (2017–2022)
